Re: URC CCP Software - Notice of Software Piracy at
<http://urcsoftware.com> and www.urcsoftware.com

Dear Sir:

Please be advised that Rosensteel Law (the "Firm") represents Universal Remote Control, Inc., a New York corporation ("URC") and has been authorized to issue this letter by URC.

The Firm is writing this letter to notify you of apparently illegal activity engaged in via <http://urcsoftware.com> and www.urcsoftware.com, which domain name has been being hosted by Voxility S.R.L. (Please see Exhibit 1).

Since its registration on August 17, 2013, this domain name has apparently been used to commit software piracy against URC Complete Control Program ("URC CCP Software").

As a background, please note the following:

1. URC is a manufacturer of remote control devices.
2. URC sells the URC products only through its authorized dealers and distributors in the U.S. and other countries.
3. None of URC's PC Programmable remotes or its Total Control® whole-house products, including any software, are authorized for online internet distribution in whole or in part.
